

Red Angus Sale

Selling 500 Head of Red Angus

- 150 Coming 2-year-old Bulls
- 300 Bred Commercial Females
- 50 Bred Registered Females

October 1, 2014 1:00 p.m. CDT

Miles, Texas

Welcome to the Halfmann Ranch and Beckton Red Angus Production Sale!

We are honored to have our long-time friends at Beckton Red Angus join us again in this offering. Pastures are recovering from recent droughts and feed costs continue to ease, driving more opportunity for cattle profitability. With cattle prices soaring at an all-time high, there's no better time to stock your herd with quality Red Angus cattle!

Working together, the Halfmann and Beckton operations have developed a powerful group of moderate framed, efficient, calving-ease bulls with growth. We are offering individual lots of registered cows and heifers from the Halfmann program as well as several groups of solid commercial females from both programs. The bulls were developed and performance tested on high roughage rations taking ultrasound data for marbling and rib-eye area as yearlings.

Halfmann and Beckton are family operations with unsurpassed reputations in improved beef production. The Beckton cattle operation continually raises sires impacting the cattle industry as trait leaders in numerous economically relevant traits (calving ease, stay ability and maintenance energy). Our programs are very similar. We don't pamper our cattle. Halfmann's cattle operation develops heifers and run cows in rough, rocky, native Texas pastures. Beckton heifers are developed, unpampered and run at high altitudes in the Big Horn Mountains of Wyoming as mature cows.

We continually focus on the commercial cattleman's needs. If you are breeding heifers, raising calves to market at weaning or retaining calves through the feedlot, we are here to help you maximize your profit potential.

We strive to provide as much information to assist you in selecting the best animals to suit your needs. Videos and catalogs are listed on our website: halfmannranch.com. We try to make the buying process as convenient as possible. We also offer free shipping on all lots (see our policy for details).

We hope you'll join us for the cattle preview and sale. Previewing of the cattle begins on Tuesday, Sept. 30, starting at 1:00 p.m., with a complimentary steak dinner following. Get involved in the sale in-person or by telephone, through Superior Livestock or online with Superior's click-to-bid on Wednesday, Oct. 1, 2014 at 1:00 p.m. (CDT).

See you soon!

Online Supplemental Information:

Color photos, supplement information, videos and color catalog available at: HalfmannRanch.com

Delivery (400 miles FREE)

Rebate

Bring your trailer on sale day and receive a \$50 rebate for each registered bull or female, and a \$25 rebate on commercial females.

Registered Bulls and Females

Free delivery first 400 miles or 100 miles per head purchased, whichever is more. Additional miles at cost. Delivery will be measured from Miles, TX, or Sheridan, WY, whichever is closest to buyer.

Commercial Females

Free Delivery first 400 miles. Additional miles at cost. Delivery will be from female's location. Please provide a facility where we may unload and reload several bulls. You may also need to accommodate a semi-truck either at your place or by making arrangements with a neighbor, sale barn, etc. We will make every effort to get your purchase as close as possible. All deliveries are at buyer's risk. We recommend insuring your purchases.

Insurance

Insurance will be available to purchase on sale day at checkout.

Feeding

Please arrange to pick up or receive your purchases. Halfmann Ranch will begin shipping on the Monday following the sale. We will hold cattle if needed for 10 days following the sale. Afterwards, purchased cattle will be assessed for feed.

Phone Bids

We guarantee Sight Unseen Purchase Satisfaction. Contact us or one of the livestock representatives before the sale. Your bid will be handled confidentially.

Herd Health

We have a comprehensive herd-wide health program which includes vaccinations for 7-Way, IBR, BVD, PI3, BRSV, Lepto, and ivermectin. The heifers are also vaccinated for bangs and vibrio. All Halfmann animals have been tested negative for BVD Pl. All the bulls will have a general health and fertility examination by sale day. Breeding information will be available on sale day. Interstate health papers will be furnished for each animal in accordance with Federal Regulations.

Sale Day Meals

Lunch will be provided prior to the sale.

Cattle Viewing

Cattle will be available for viewing from Noon - 6 pm on the day before the sale followed by a complimentary steak dinner. Cattle will be available for viewing day of sale beginning at 8 am. All bulls and Halfmann Females are located at Halfmann Ranch in Miles, TX. All Beckton females are Located at Beckton Red Angus in Sheridan, WY.

Auction Format:

Selling in catalog order by recorded video. Cattle available to view on the ranch in Miles, Texas. Female lots 148-154 available to view in Sheridan, WY.

How To Participate As An Absentee Buyer

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at superiorlivestock.com.**

Here's How It Works

Turn in Bids Over the Phone.

This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at 817-378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid.

This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction.

The sale will be broadcast via satellite on Dish Network channel 232 (RURAL TV). Please note that there is a short delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at superiorclicktobid.com – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

Focusing On The Bottom Line

Profit has two sides to the equation, Income & Expense. For many years, some cattlemen have concentrated on how to maximize income, while not paying attention to expense. When times get tough, businesses of all industries tend to become more efficient and focus on reducing expenses. The Red Angus Association recognized this early on and developed unbiased scientific methods to measure economically relevant traits to help cattlemen become more efficient. The most economically relevant traits are Calving Ease Direct (CED), Birthweight (BW), Maintenance Energy (ME) and Stayability.

The Impact Of Birthweight & Calving Ease

The foundation of animal breeding is fertility and calf survival. Without cows breeding up and weaning a calf every year, producers will incur an economic loss. Using low birthweight, calving-ease bulls with growth will insure a higher percentage of weaned calves and more total pounds of calves weaned. For example, suppose you use a higher birthweight bull that adds 20 more pounds per calf at weaning. If the calves wean at 600 pounds and you lose one calf at birth, the cost of losing one calf is equivalent to the additional 20 pounds of gain on 30 calves. Maintaining a high weaning percentage should be a high priority. Low birth weight is highly correlated to mature cow size. An added benefit of using low birthweight bulls is the surest way of producing moderate-sized, efficient females for the future.

Stayability

This predicts the ability of a bull's daughters' ability to conceive every year until the age of six. That is how long it takes a female to breakeven given all the expenses of development. Red Angus is the only major breed able to measure fertility in this manner due to the use of THR (Total Herd Reporting).

Maintenance Energy

This EPD predicts the relative feed energy requirement for maintenance, for cows produced by a sire or female. 70% of cow herd feed costs are burned up in maintaining weight and condition. Feed costs make up by far the largest proportion of operating costs. The ME EPD is calculated using mature weight, milk and body condition score (BCS). Breeders collect cow weights and BCS at weaning. Maintaining moderate framed and easy keeping females is very crucial in our environment. They require less energy to maintain each year and they also breed back more consistently. Our cows must wean a high percentage of their own body weight to be considered efficient. If you can raise a 600-lb. calf each year with an 1100-lb. cow, why would you want to keep feeding that 1600-lb. cow that does the same thing with more grass & feed?

Using Epds & Ratios

A common misconception is that EPDs will tell us which animal of several being compared is 'best.' EPDs are merely a description of each animal's genetic make-up. It is up to us to determine which animal is best for us. Selecting for single traits is not always the most effective choice. When selecting a bull, take into consideration all traits that are relevant for your program. By correctly using EPDs, we can each determine which animal best fits our programs, or moves them in a direction we want to go. Ratios are used for comparing within a single contemporary group. Selecting between contemporary groups with actual data can be inaccurate and lead to selection or culling errors! Performance measurements such as growth and marbling may vary greatly between contemporary groups depending on how they are managed and fed. For example, grain-fed animals are more likely to have higher marbling scores than forage-fed animals. However, forage-fed animals may be genetically capable of producing higher marbling scores, but are not fed high-grain rations for other management reasons.

The Rancher's Guide to EPDs

Courtesy of the Red Angus Assn. of America. For more information on EPDs, visit redangus.org.

EPDs: Expected Progeny Difference – How an animal's future progeny will perform compared to the progeny performance of the average animals in the breed, assuming similar environments and matings of the same genetic value. EPDs in this catalog for sale lots are Fall 2012 non-parent EPDs without accuracies. If accuracies were listed, they would be very low.

(ACC) Accuracy – An expression of reliability of an animal's EPDs. The higher the rating, the more accurate the EPD.

CED (Calving Ease Direct) EPD: Predicts the probability of calves being born unassisted out of 2-year-old heifers.

BW EPD: Predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

WW EPD: Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).

YW EPD: Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).

Milk EPD: Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

Total Maternal EPD: Predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. $TM\ EPD = Milk\ EPD + 1/2 (WW\ EPD)$

ME (Maintenance Energy) EPD: Predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.

HPG (Heifer Pregnancy) EPD: Predicts the probability of heifers conceiving to calve at two years of age.

CEM (Calving Ease Maternal) EPD: Predicts the probability of a given animal's daughters calving unassisted at two years of age.

Stayability EPD: Predicts the probability that a bull's daughters will remain in the herd until at least six years of age.

Marb (Marbling) EPD: Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

YG (Yield Grade) EPD: Predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.

CW (Carcass Weight) EPD: Predicts differences in hot carcass weight and is expressed in pounds, because Red Angus' CW EPD is a multi-trait.

REA (Ribeye Area) EPD: Predicts differences of carcass Rib Eye Area between the 12th and 13th rib.

Fat (Backfat)EPD: Predicts differences for carcass fat depth over the 12th rib, as expressed in inches.

Terms & Conditions

BIDDING DISPUTES:

The Auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS:

Terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

PURCHASER'S RISK:

Each animal becomes the risk of the Buyer as soon as sold. Insurance will be available sale day.

CERTIFICATE OF REGISTRY:

A certificate of registry will be furnished to the Buyer for each animal, after settlement has been made.

ANNOUNCEMENTS:

Changes or errors of information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed matter in the catalog.

BREEDING GUARANTEE:

All animals sold are guaranteed breeders by the Seller. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition, free of disease and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated, at his option, to refund the purchase price, replace the animal with another of equal value, or grant the buyer credit for use on cattle marketed by the seller. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense. All animals are guaranteed to be breeders, with the exception of: a) calves under twelve months of age; or b) animals shown by Purchaser after sale; or c) gross negligence or willful misconduct on the part of the Purchaser.

SELLER'S SEMEN RIGHTS:

Seller keeps a 50% revenue-sharing breeding interest without possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding. Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest, unless otherwise agreed upon mutually by all owners.

LIABILITY:

Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

CONTRACT:

The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY:

Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

We are leading off our sale with a tremendous bull that can add a lot to many programs. Son to the highly sought after Nebula P707, this dark red bull has tremendous presence and dimension. Bold ribbed & big footed, A895 always caught my eye, even as a young April calf up to weaning. He really turned it on in the feed test and ratioed 112 at yearling, 114 marbling and 113 ribeye. We plan on using this bull in our program through AI.

Our Synergy calves are really impressive and that's evident in A883. Typical in make, Lot 3 is bold ribbed, heavy muscled and deep flanked. His dam is from a solid maternal line that offers moderation and high performance. Good udder, easy keeping females that do a solid job every year! We expect this Synergy progeny to produce great females as his sire, Nebula P707 is known for.

Z725 is a maternal brother to the 2010 high selling bull (reference sire H). We purchased the commercial calves sired by ref. sire H and were so impressed that we bought the bull back as well. The dam to these two bulls always impresses us with the high performing, high marbling calves she raises. We used Z725 in our program for two years and expect great things from his calves. Sound structured solid bull!

One of our top bulls by far in this offering is Lot 10. We want to offer you the opportunity to own a future great. A821 is a son to the heavily used Packer S008 bull out of a high producing Destination daughter. With semen no longer available on Packer, his sons are in high demand. It's no mystery why when you see what Lot 10 has done in performance. This is a knock your socks off growth bull with superior carcass! Just look at his ratios: weaning 120, yearling 119, marbling 111, REA 120. We used A821 naturally as a yearling on our cows. We love this bull and hate to part with him, so we are collecting semen on him to use in our AI program in the future. Here's your chance to be a part of something special. Game changer for your herd and potential to market semen!

RED CHAIN FEEDS
THE BRAND TO TRUST.

With over 45 years of operation, we have the experience and the expertise to create the perfect feeding solution for your cattle operation. We offer a diverse group of high quality feeds and have the ability to custom formulate feeds to fit your specific needs.

REDCHAINFEEDS.COM

GORMAN MILLING COMPANY, INC
Gorman, Texas | (800) 588-2252

146A-F LOCATED IN, AND DELIVERED FROM MILES, TX. Buyer has option to purchase any combination of these lots. Any remaining lots will be auctioned until all are sold.

A uniform set of solid-red commercial Red Angus heifers developed on native rocky rangeland in west Texas. These females are fully vaccinated, BVD-PI tested negative and vaccinated for Brucellosis. They were time AI-bred to Beckton Halfmann Hustler R588 (the breed's go to calving ease sire) and cleaned up with low birthweight bulls. The heifers are cake broke with a sire. They were sonogrammed and sorted for calving date. Check out Lot 2 if you would like to see what these heifers can produce. He is out of these heifers mate from a few years ago.

- 146A** 17 head of Halfmann spring-bred heifers to calve on February 14 by Beckton Halfmann Hustler R588 (Ref. Sire B).
- 146B** 17 head of Halfmann spring-bred heifers to calve on February 14 by Beckton Halfmann Hustler R588 (Ref. Sire B).
- 146C** 17 head of Halfmann spring-bred heifers to calve on February 14 by Beckton Halfmann Hustler R588 (Ref. Sire B).
- 146D** 10 head of Halfmann spring-bred heifers to start calving on March 5 through April 20 by low birthweight cleanup bulls.
- 146E** 10 head of Halfmann spring-bred heifers to start calving on March 5 through April 20 by low birthweight cleanup bulls.
- 146F** 8 head of Halfmann open heifers.

148-154 LOCATED IN AND DELIVERED FROM SHERIDAN, WY

148 Load of **20** head of Beckton spring-bred heifers to start calving on February 20.

Buyer has option to purchase choice of Lots 149-152.
Remaining lots will be sold at choice to the next winning bidder until all are sold.

- 149** Load of **40** head of Beckton young cows.(average age 3.5 years) to start calving March 5th. Bred to Beckton Red Angus sires.
- 150** Load of **40** head of Beckton young cows.(average age 3.5 years) to start calving April 5th. Bred to Beckton Red Angus sires.
- 151** Load of **40** head of Beckton young cows.(average age 3.5 years) to start calving May 5th. Bred to Beckton Red Angus sires.
- 152** Load of **40** head of Beckton young cows.(average age 5-7 years) to start calving April 5th. Bred to Beckton Red Angus sires.

First buyer has the choice of Lot 153 or 154, or the option to take both at the same price.

- 153** Load of **20** head of Beckton open heifers, ready for fall breeding.
- 154** Load of **30** head of Beckton young open cows, (average age 3.5 years) ready to breed.

IT'S CLOSING TIME FOR REPRODUCTIVE DISEASES.

NEW LABEL CLAIM

Calves nursing Express® FP—vaccinated cows can now be vaccinated with Pyramid® 5 + Presponse® SQ.

PREVENTION WORKS.

Express® FP is specifically designed for cow herd protection against key reproductive diseases such as IBR and BVD. EXPRESS FP is backed by a solid foundation of proven performance that you can count on. A better vaccine means healthier cows, heifers and calves, which means the opportunity for growth is wide open.

EXPRESS® FP

Specifically Designed for Reproduction

Prevents BVD PI Calves, Including BVD Type 1b¹

12-Month DOI for BVD PI Calves and IBR Abortions

Prevents Urinary Shedding of *Leptospira borgpetersenii* serovar hardjo (type hardjo-bovis)

Supported by a Money-back Guarantee

Safe for Use in Pregnant Animals

¹F. Kovaks, et al. *Veterinary Microbiology* 96 (2003) 117-131.

Prevention Works does not imply prevention label claims for use of a vaccine/vaccines.

P707 has been setting the Red Angus world on fire as one of the best start to finish bulls in the breed today. Low birth, heavy weaning and yearling weight with high marbling and low maintenance make him a very balanced and herd changing sire. His progeny are very consistent with lots of eye-appeal and thickness. Perhaps his best quality is the quality of females he sires.

**Runnels
Boys Show
Champion
Steers**

Reserve Champion Curlew Steer of the San Antonio Livestock Show is Red Angus. Glenn Halfmann shows his Red Angus steer on hoof and later won his curlew on exhibit as the reserve grand champion over all breeds.

The Champion Red Angus Steer, Open Class, shown by Charles Fry, of buller, of Rowena, Texas. Pictured at left is C. T. Parker, Ridinger, under whose supervision the steer was fed as a 4-H project. Center is the breeder of animal, Owen Kelle of Jax, Texas.
