30 Registered Red Angus Bred Females

1 **Beckton**
Red Angus
Foundation Herd of the Red Angus Breed

HALFMANN
— LAND & LIVESTOCK —

Raised with Tradition • Bred for Profit • Developed to Last

Welcome to the Halfmann-Beckton Red Angus Sale!

Dear Friends,

Please join us on Wednesday, October 5th at the Halfmann Land & Livestock headquarters near Miles, Texas for the 2022 edition of our "Profit Through Experience Sale". Throughout this 2022 sale catalog, you'll find genetics that balance calving ease, pay-weight, reproductive traits, lower cow herd costs, and improve calf value traits. Better yet, those genetics will be delivered by masculine, athletic Age-Advantaged bulls that are ready for heavy service in big country.

Sixty days prior to the sale date, we're in one of the strongest calf markets in history, Superior's recent Video Royal XXX saw 750 lb. steers routinely selling for over \$200/cwt., and several lots of reputation Red Angus heifer calves outsell their steer mates.

One of the advantages of longevity in the seedstock business is that our cow herds have been exposed to all forms of environmental challenges and any genetics that lacked adaptability have long been weeded out. Here at Halfmann Red Angus, in one of the most severe Texas droughts of this generation, our Red Angus cows have raised a calf crop we'll be proud to offer in 2023, and they bred back at over 96% including over 60% synchronized A.I. conception to get our 2024 sale off to a great start.

A special feature of the 2022 sale will be the 30 registered Red Angus females we are sharing. In addition to the entire registered female offering being 100% A.I. sired, it includes some of our most prolific donors, our top performing bred yearlings, and some of our highest MPPA dams. Also, Beckton and Halfmann Red Angus collectively are offering 180 commercial Red Angus bred females, which will sell from their respective ranch. These females result from the same sire lines that produced our 2022 bull offering, so they are loaded with genetics for easy calving, easy-keeping, high fertility, longevity, and low maintenance costs.

The Halfmann and Forbes families have over 135 years combined experience in supplying genetics to cow/calf producers. Our respective programs' longevities are largely due to our continued focus on producing Red Angus seedstock that balance the necessary traits to sustain rancher profitability. As you study the catalog if you have any questions, or need someone to assist you in bull selection, please feel free to give either of our operations a call. We look forward to seeing you on October 5th!

Halfmann Land & Livestock and Beckton Red Angus

CODY, GLEN & CHAD HALFMANN

TRISH & CAM FORBES

The Beckton bulls are divided into four groups:

- Lots 17 - 24 are high performance herd sire prospects.
- Lots 51 - 67 are top Beckton Herd Builder Index sires to produce great replacement heifers.
- Lots 86 - 101 and 127 - 141 are Beckton's reputation Calving Ease sires perfect for breeding heifers & young cows.

Online Supplemental Information:

Color photos, supplement information, videos and catalog available on our website: Halfmann.ag.

Cattle Viewing

Videos are available online at Halfmann.ag. All bulls and Halfmann's commercial heifers will be on display at 12 noon the day prior to the sale at Halfmann Ranch Headquarters, Miles, Texas. The Beckton commercial females will be available for viewing and delivered from their ranch in Sheridan, Wyoming.

Delivery

- Bulls will be delivered free of charge to **central points** for the first 400 miles from Miles, TX. All miles beyond 400 will be at cost.
- Registered females will be delivered at cost.
- Buyers whose bull and registered female purchases total \$18,000 or greater will receive **FREE DELIVERY** to central points within the continental US.
- Buyers who haul their own animals on sale day can deduct \$100 per bull from their purchases.
- Halfmann commercial females sell FOB according to their lot description. Beckton will provide free trucking on purchase of 40 or more commercial females to Miles, TX or equivalent (1150 miles).

We will deliver cattle 1 to 3 weeks after the sale, although we will try to accommodate you if you need your bulls right away. We will make every effort to deliver your purchases to a central point as close as possible to your ranch.

All deliveries are at buyer's risk. We recommend insuring your purchases.

Insurance

Insurance will be available to purchase on sale day at checkout

Feeding

Please arrange to pick up or receive your purchases. Halfmann Ranch will begin shipping on the Monday following the sale. We will hold cattle if needed for 10 days following the sale. Afterwards, purchased cattle will be assessed for feed at \$5/head/day.

Absentee Bids

If you are unable to attend the sale, we can help you select the bulls or females to fit your needs. We guarantee Sight Unseen Purchase Satisfaction. Contact us or one of the livestock representatives before the sale. Your bid will be handled confidentially.

Herd Health

We have a comprehensive herd-wide health program which includes vaccinations for 7-Way, IBR, BVD, PI3, BRSV, Lepto, and Ivermectin. The heifers are also vaccinated for bangs and vibrio. All Halfmann animals have been tested negative for BVD PI. All the bulls will have a general health and fertility examination by sale day. Breeding information will be available on sale day. Interstate health papers will be furnished for each animal in accordance with Federal Regulations.

International Buyers: it will be the responsibility of the buyer to cover the costs of any testing required for export outside of the United States.

Sale Day Lunch

A barbecue lunch will be served on sale day starting at 11 am. The lunch will be sponsored by **Gorman Milling Company/Red Chain Feeds**.

Auction Format:

Selling in catalog order by recorded video. May bid in person at Halfmann Ranch in Miles, TX, by phone with a livestock representative, or through Superior Productions (see next page for phone and computer instructions).

How To Participate As An Absentee Buyer

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at superiorlivestock.com.**

Here's How It Works

Turn in Bids Over the Phone

This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at 817-378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid

This is Superior's online bidding program for cattle buying. **Please note that high-speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of superiorclicktobid.com and follow the outlined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an email confirming which sale you are now registered for.

Viewing the Auction

There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone, or tablet, go to www.superiorlivestock.com. If you want to bid over the computer, you must go to www.superiorclicktobid.com. Remember, you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.

LOT 1 - HALFMANN FOUNDATION J079

Foundation is what the Halfmann program is all about! Sleep-all-night calving ease with enough horsepower and carcass merit to roll right into the cow herd once they outgrow the heifers, and backs that up with an impressive 18 CED to 112 YW spread.

Foundation got better with each trip through the chute posting ultrasound ratios of 116 IMF and 103 REA. His 6-year-old dam maintains a 361 day calving interval and average progeny ratios of: 102 weaning, 100 yearling, 113 IMF and 105 REA.

His sire, Merlin has earned a reputation for siring exceptional calving ease with powerful growth, excellent feet and superior feed efficiency. Foundation should live up to his famous sire's reputation to reduce birth weight, increase pay-weight, while improving feed efficiency, and foot structure.

LOT 2 - HALFMANN DETERMINATION G645

This is what the ideal growth curve looks like! 20% lighter at birth, 2% heavier at weaning, 4% heavier at yearling, and 8% faster rate of gain. This bull has just continued to move to the front of his contemporaries, earning ultrasound ratios of 107 IMF and 106 REA.

Determination is sound footed and docile with wide-body shape and plenty of natural thickness. His young Top Gun dam has already caught our attention, thanks to her average progeny ratios of: 102 weaning, 104 yearling and 108 ADG.

RED ANGUS HERD BULLS

Lot 3

The first thing anyone may notice about Prime Plus is his incredible shape and thickness. The second thing might be his single digit marbling EPD, backed by an extraordinary 169 IMF ratio. Better yet, he represents a highly profitable growth curve - born 9% lighter than his herd mates, he weaned 8% heavier, gained 4% faster, and was 7% heavier at yearling. He was raised by a first calf heifer who's already earned a 105 MPPA.

This bull has a top that will hold rainwater and enough capacity to live off low quality forage. He is a flush-mate to our high selling bull from the last two years, as well as the lots 171, 173 & 174 registered females. His dam has been one of our most prolific donors having produced 17 calves, including some of our lead-off and top selling sale bulls.

SONS OF HIGHLY PROVEN A.I. SIRES

Lot 10

This moderate framed, wide body Brunswick son balances 9 traits in the top 20% - EPDs he earned with outstanding performance ratios of: 113 weaning, 117 yearling, 126 ADG, 115 IMF and 122 REA. His 7-yr-old dam is one of our very best; she maintains a 363 day calving interval with average progeny ratios of: 107 weaning, 103 yearling, 120 IMF and 106 REA.

Lot 11 (pictured after running with heifers, summer 2022)

One of the widest based, strongest top bulls we've ever sold. Big Top was used in our own herd this summer, and still looks in sale shape. His top 1% REA rank was earned the old fashioned way - with a 131 REA ratio. This adds to his already impressive ratios of: 107 weaning, 110 yearling, 115 ADG, and 107 IMF. He's backed by plenty of cow power; his 9-yr-old dam has maintained a 359 day calving interval with average progeny ratios of 102 weaning, 103 yearling, 110 IMF and 109 REA.

Lot 12

Here's a 3/4 brother to Lot 11, and similarly built in terms of depth, thickness and fleshing ability. J066 had one of the highest IMF scans in the offering at 126. His 9-yr-old dam maintains a 361 calving interval and a 103 average progeny weaning ratio.

LOT 16 - HALFMAN WIDE LOAD J125

If you like to turn out brothers in multi-sire pastures to increase the genetic uniformity of your calf crop, Wide Load is an ET full brother to Lot 14 and a maternal brother to Lots 4 & 5. Just like his brother, Wide Load is deep bodied, and wide based and has a very similar EPD profile. Of course, they share the same highly productive, highly prolific dam, C260, produced 15 calves on her way to earning a 110 MPPA including the lead-off bull in our 2021 sale.

Readjust your glasses for lot 17. We've been selling January and February born bulls up till now. As we start into a great set of bulls from our great friends at Beckton Stock Farm - the nation's longest tenured Red Angus herd, we're going to be looking at bulls born in the later spring. J306 leads off the Beckton offering with excellent performance ratios of 112 weaning and 108 yearling. His 102 MPPA dam maintains a 366 day calving interval.

Age of Dam: 6 | Dam Weight: 1034 | dMPPA: 102

This son of the \$100,000 LSF SRR President was one of the top gainers, posting an ADG ratio of 114. President is known to improve quality grade, so J735's single-digit rank for marbling comes as no surprise. His equally impressive HerdBuilder index results from his best 25% ranks for all the cow herd building traits.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

RED ANGUS

RANCH TESTED. RANCHER TRUSTED.

RedAngus.org

COMMERCIAL FEMALES

How the Halfmann-Beckton Commercial Female Sale will work:

- Commercial Females were videoed at their respective ranch of origin prior to the sale. That video will be available with the bull videos on Superior and at Halfmann.ag.
- The female lots will be sold in uniform groups according to age and pregnancy status.
- The winning bidder of any groups sold as “gate-cut” will have the option of “rolling” the remaining head in that group.
- The female lots include general descriptions of the cattle selling as well as delivery information.
- The Sale Day Supplement will have any updated palpation/ultrasound information and how that impacts the exact number of head in each lot.
- Halfmann commercial females sell FOB Miles, TX.
- Beckton will provide free trucking for purchases of 40+ head (any combination of Lots C3-C6) to Miles, Texas or equivalent (1150 miles).
- All commercial Females identified as “Bred” have been determined pregnant by a competent ultrasound or palpation technician.

	# Head	Age	Genetic Makeup	Estimated Calving Dates	Service Sire(s)

DAUGHTERS OF OUR MOST PROLIFIC DONORS

LOT 170 - HALFMANN TAMARA OR G551

Here's a Top 1% GridMaster daughter of Oracle with the genetic predisposition to increase pay-weight, rate of gain, quality grade and muscularity. Her dam, B510, has raised 4 natural calves with a 351 day calving interval and average progeny ratios of 103 weaning, 104 yearling, 105 IMF and an incredible 119 REA. Her mating to Halfmann Asset SF G476 will linebreed Oracle and his famous dam, Y6648, arguably the most productive daughter of P707.

Lot 173

J139 is well beyond the top 1% for GridMaster and delivers exceptional spread from CED to YW plus 8 traits in the top 10% of the breed. She's another daughter of the highly productive donor, B062. Her maternal grandam, T351 maintained a 111 MPPA. Her dam, P6837 earned a 108 MPPA.

OUR MOST PRODUCTIVE COW FAMILIES

Lot 174

Full sister to Lot 173, and phenotypically very similar. You won't have to wait long to get these Oracle x B062 sisters into production. Both bred up on their first A.I. service to the outcross sire, Top Tier, whose first calf crop has earned rave reviews for thickness, big tops and slick hair coats.

Lot 178

This cow has probably put as many sons in the front of our bull sale as any; this year, her Brunswick sons sell as Lots 4 & 5. Last year she was responsible for our lead off bull. She is the dam of our herd bull, "Chrome" and his full brother who led off our 2019 sale. This 110 MPPA donor maintains an outstanding production record with average progeny ratios of: 111 weaning, 112 yearling and 109 REA. She's fresh, flushes well and is just now in the prime of her productive life.

Lot 179

This 104 MPPA donor is a half-sister to C260 who sells just ahead of her. These two females are so similar they could be bookends! C210 delivers the horsepower with single digit ranks for payweight, gain and muscling. The Energize calf she carries projects an amazing 16 - 121 spread from CED to YW and top 5% or better ranks for ProS and GridMaster indices.

FRONT PASTURE RED ANGUS FEMALES

Lot 180

This female is just entering the prime of her productive lifespan, and does so having already earned a 108 MPPA. That wasn't any surprise to us, her dam, B126 has maintained a 107 MPPA. She will calve to her first AI service to Energize, which projects exceptional spread from CED to YW.

This Oracle daughter can keep up with any in the sale. She leaves us with two daughters, having maintained a 379 day calving interval, and average progeny ratios of 103 weaning and 116 yearling - and she's got an Energize calf in her belly.

Lot 183

We flushed G435 to Top Tier and have recently weaned those very impressive calves. Her dam was one of our best Synergy daughters who earned a 106 MPPA. This is the only cow in the sale bred to Brown PRA Patriot G6291, who is a very well balanced son of the recently deceased, HXC AUTHORITY 7794E.

Bourne on Defender almost guarantees a moderate framed, easy-fleshing, cow that works in tougher country. Note the "off-the-charts" rank for heifer pregnancy rate.

Lot 188

FROM THE HEART OF OUR REPLACEMENTS

Lot 189

If you want to reduce risk, here's an own daughter of P707, easily one of the most influential and proven Red Angus sires of this century. Note the maternal grand-sire, HalfmannHustler R588, a sire that was way ahead of his time. Even after 17 years of genetic trend, he still combines lowest 2% birthweight with triple-digit growth and best 8% stayability. This combination of highly proven sires, in addition to her superior phenotype and productivity is why we chose to flush E731.

TERMS & CONDITIONS

BIDDING DISPUTES

The Auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS

Terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold. Insurance will be available sale day.

CERTIFICATE OF REGISTRY

A certificate of registry will be furnished to the Buyer for each animal after settlement has been made.

ANNOUNCEMENTS

Changes or errors in the information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed matter in the catalog.

BREEDING GUARANTEE

All animals sold are guaranteed breeders by the Seller. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition, free of disease, and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated, at his option, to refund the purchase price, replace the animal with another of equal value, or grant the buyer credit for use on cattle marketed by the seller. The return of the full purchase price shall, in any case, be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense. All animals are guaranteed to be breeders, with the exception of a) calves under twelve months of age; or b) animals shown by Purchaser after sale; or c) gross negligence or willful misconduct on the part of the Purchaser.

SELLER'S SEMEN RIGHTS

Seller keeps a 50% revenue-sharing breeding interest without possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding.

Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest unless otherwise agreed upon mutually by all owners.

LIABILITY

Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

CONTRACT

The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY

Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

Together we're better.

At Capital Farm Credit, we do things differently. We're a cooperative—that means we're owned by the same ranchers, farmers and agribusinesses we serve. Whether you're looking for operating capital, a beginning rancher loan or need help navigating a rural land purchase, your goals are our goals.

Partnership that really pays.
